Call for Proposals

First published Notice: 30, January, 2010

In the preparation for Reduction of Emission from Deforestation and Forest Degradation (REDD) by 2012, we are writing a Readiness Preparation Proposal (R-PP) with Financial Support from Forest Carbon Partnership Facility (FCPF) of the World Bank. The R-PP, consist of overall six components (see website www.forestcarbonpartnership.org for details). The Cell intends to contract out Component No. 3. Develop a reference scenario (sub-component 3 .1 Review historical data available and Sub-component 3.2 Forecasts of future emissions) and Component 4. Design a Monitoring System. Through this notice we invite interested individuals, organizations or consortia to submit their proposals for carrying out these three pieces of work, containing the following details of address below latest by 14th February 2010. Note that separate proposal is required for each piece of work. ToRs for each component can be purchased from the cell.

- Indication of institutional capacity and relevant experiences in carrying out the type of assignment
- CVs of the potential persons to be engaged
- Separate technical and financial proposal in sealed envelopes, and
- Anything else which would demonstrate that the concerned individual or parties have interest and capacity to undertake these assignment with limited time frame and to high work standards
- Registered in VAT and having tax clearance letter

The Address of Submission:
